## *American Field Service*

This year at Mt. Abe we were fortunate enough to have two foreign exchange students.

With her friendly personality and warm smile, Jane Thornber, from England, has been a welcome addition to the student body.

Fariba Khatib-Shahidi, from Iran, was our other exchange student. Her eagerness to get involved with activities at school has allowed her to gain many friendships with students and teachers alike.

We hope that Jane and Fariba have enjoyed their year at Mt. Abe and that they have gained as much from their experience here as their Mt. Abe friends have gained from them.

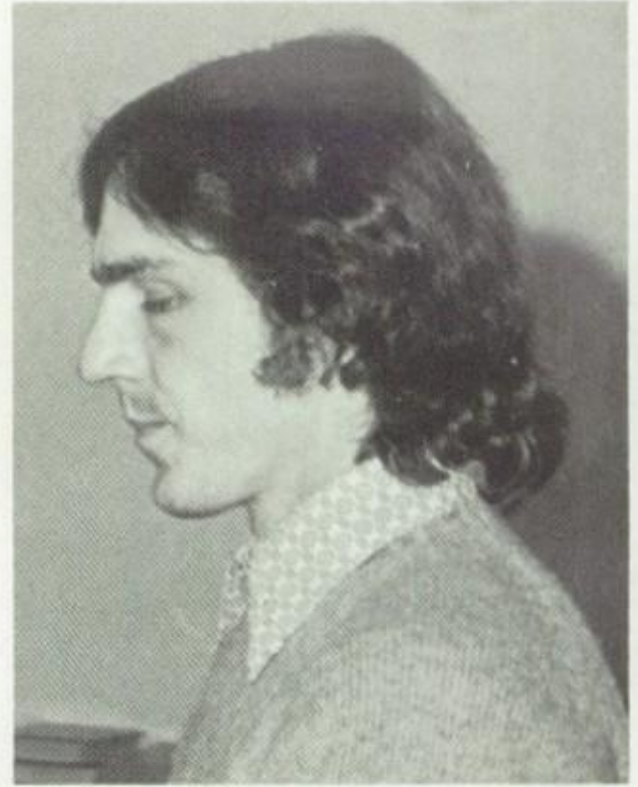

We wish you both the best of luck always!

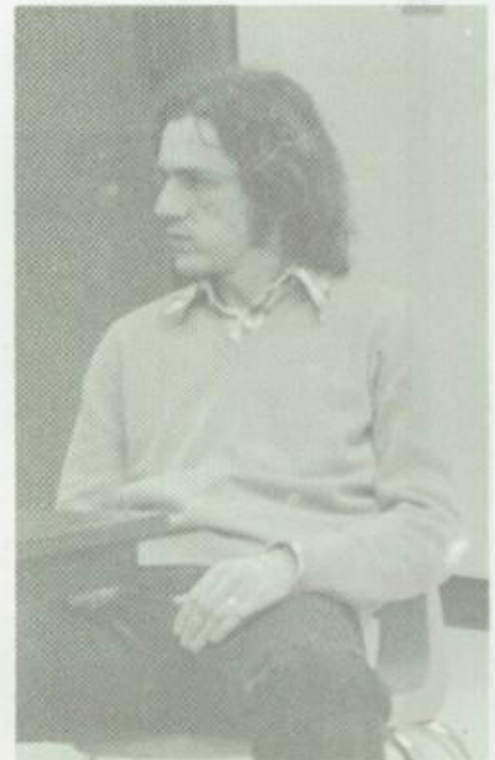

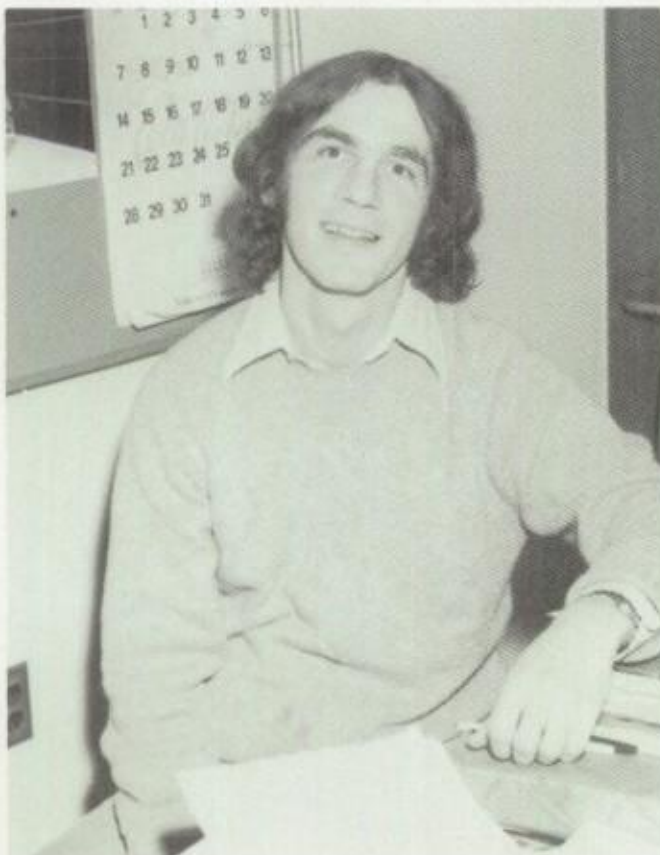

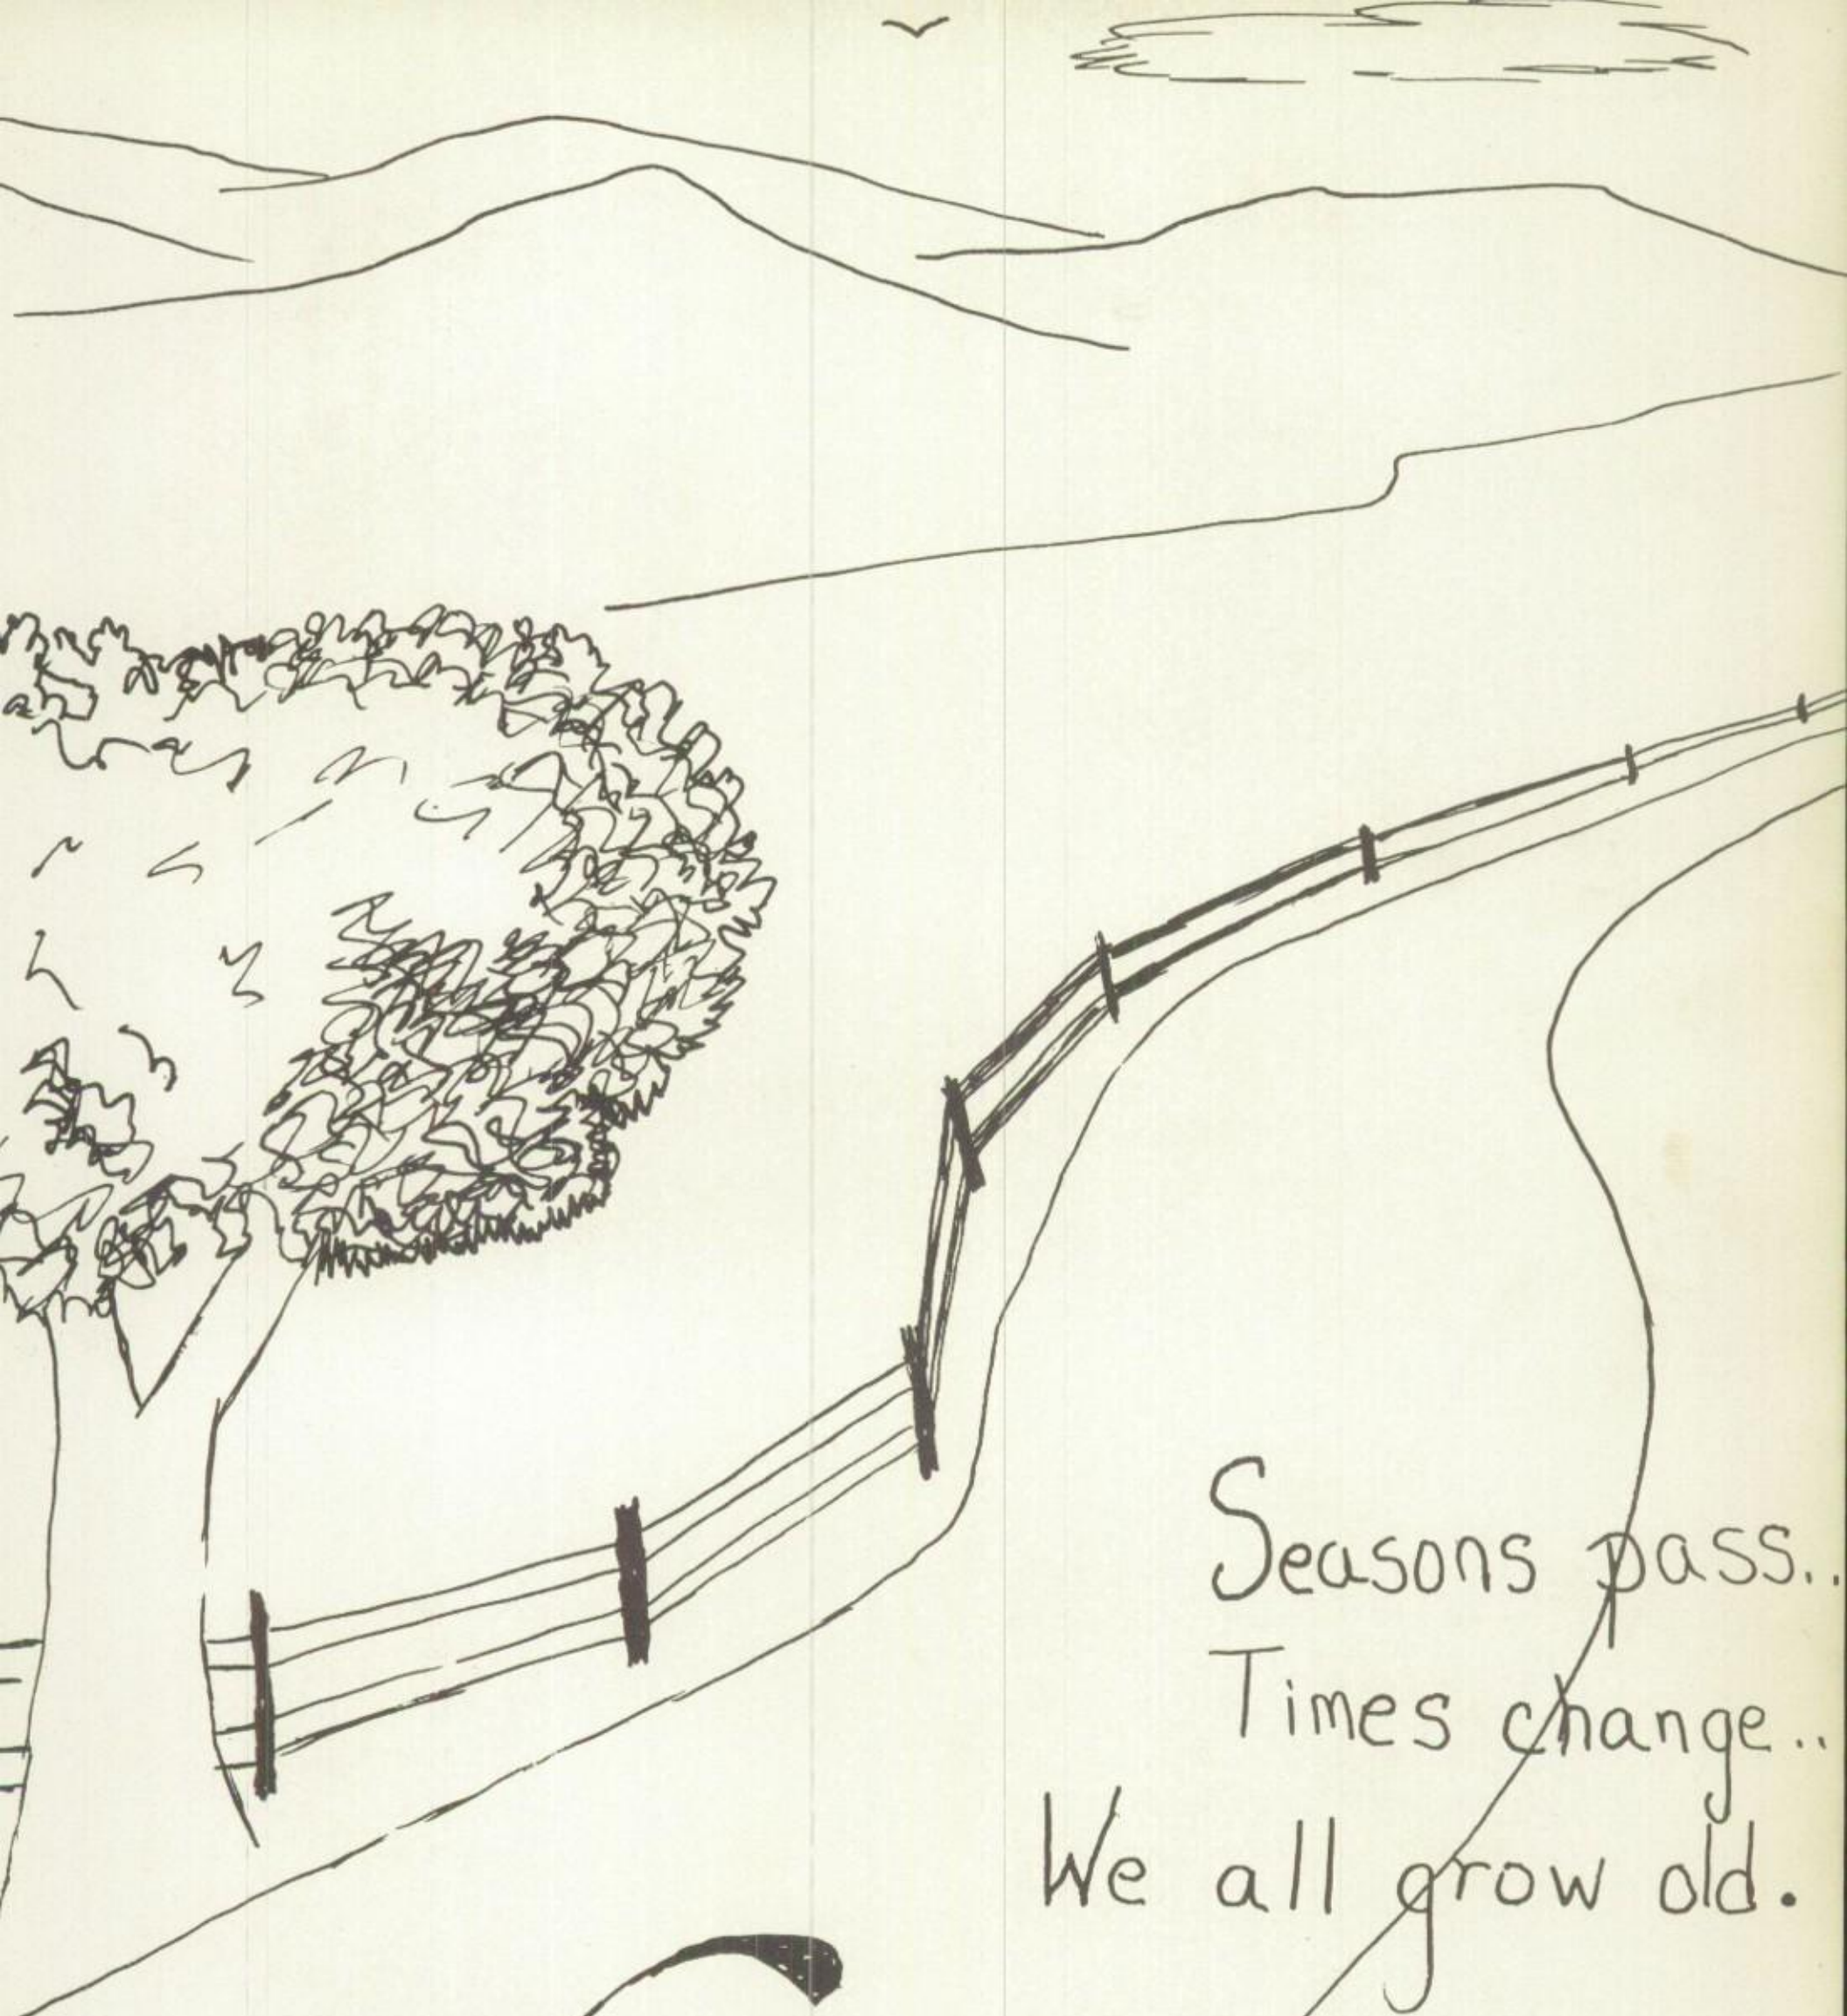

## *Dedication*

With fond memories of your tobacco chewing,  
taste in books, practical jokes, sense of humor,  
and all-in-all your concern for individuals, we,  
the Seniors of 1979, dedicate our yearbook to  
you, Mr. Robert Newman.

Seasons pass..  
Times change..  
We all grow old.

*Mr. Hall's  
Message  
to  
the Seniors*

Mr. Keith Hall, Superintendent of Schools

Congratulations upon your graduation from high school. You are the first group from our high school who has had to meet the new basic competency requirements of the State of Vermont. The national trend is toward more proof of accomplishment at all school levels. I certainly have no quarrels with this assessment, but, contrary to national polls, I believe you and your graduating companions from around the nation are by far better informed about problems that face humanity than your parents or grandparents were at a similar stage in their development. I believe your competence in the basic skills is on an equal plane with those already functioning in society after schooling. During the whole course of recorded human activity, there has been criticism of youths and their skills, both mental and social. Take a look at this quotation which could have been written in NEWSWEEK this past week:

The children have bad manners, contempt  
for authority and love to chatter in place of exercise.  
They contradict their parents and tyrannize teachers.  
Socrates — 5th Century B. C.

Believe me, there is ample evidence in the history of man to counteract the preachers of the doom and gloom of youth. That is where I place my hope. The hope for the future rests with youth like you. In this country the system demands your attention, your care, and your new thoughts. I urge you to look to civics as you pass out of school into the larger community. Civics, you recall, is that "dull" course about government, but through your participation it can become alive.

When unfair laws are made or government becomes corrupt, it is easy to forego your voting privilege or just ignore it completely; however, whole nations of people have lost their personal rights via the complacency route.

I challenge you not to take the complacency route, but, rather, an active role in society.

Mr. John D. Connolly, Principal

*Mr. Connolly's  
Message  
to  
the Seniors*

Congratulations to each member of the Class of 1979. You have achieved a first step into adulthood. The routes that you travel at this junction will vary, for each of you is an individual.

In preparing you (hopefully) for this journey, many people have offered you advice during your years in school. Your parents, teachers, relatives, and classmates have offered you their advice. At best, advice is much like a good road map: something to provide direction as to what might lie ahead. If you make a wrong turn, or decision, we hope that you'll be able to turn around, without embarrassment or too much difficulty, and try another route. We all have a tendency to ignore road maps — and advice — on different occasions, but do not forget that the road map — and the advice — will always be there, making it possible to turn around and start again.

May each of you make a positive contribution, making your life, community, state, and world that you live in, a better place for all living beings.

Best wishes.

## *Editor's Note*

As editor of this year's AERIE, I have to say that I wasn't really the greatest for the job. However, with the help of our hard working staff (which, by the way, made the meetings and the work on the book most enjoyable) we finally got the book completed.

I also have to say that it is a worthwhile thing to be on your yearbook staff. No one really knows how much fun or how trying it can be at times unless they have worked on the staff. So, I say to everyone, try doing something worthwhile: join your yearbook staff. It can be a great experience. All right, enough of the pep talk!

There has to be, without a doubt, special thanks given to certain people for their help: Belinda Nye, with her "go get 'em" attitude; Sally Hatstat, with her ability to get into everything; Doug Baker, for being lucky enough to be the only guy with all of us gorgeous females, and also for his willingness to do any task asked of him; Lisa Sumner and Kathy Audy, who even though they weren't often seen were known to be present by the constant pitter patter of their typewriters; Joffre Campbell and Stuart Short for their quick clicks (with the camera); Linda Fauteux, our Layout Editor, who was here to help us work and play; and anyone whom I didn't mention, but who is still not forgotten. Thank you, all.

To next year's staff and their Editor-in-Chief Beth Perreault, all I can say is, "Good luck and all that stuff!"

I've saved the best for last. The whole staff and I thought I should say something especially nice to Mrs. Brennan for all her patience, concern, putting up with our less-than-business-like behavior, and her encouragement to us at our down moments. Last, but by no means least, I want to say that the yearbook would have had lots more troubles this year without Mrs. Brennan. Once again, thank you, Mrs. Brennan.

Sincerely yours,  
and hopefully,  
Adios, Amigos,

*Peggy*

P.S. Beth, it's all yours!
